Computer Science student at UBC Okanagan (Class of 2027) seeking a Fall 2026 Software Engineering co-op. Backend and full-stack experience building and load-testing applications with React, FastAPI, Python, PostgreSQL, and Docker.

EDUCATION

University of British Columbia, Okanagan

Bachelor of Science, Computer Science

Sep 2023 - Apr 2027 (Expected)

Kelowna, BC

EXPERIENCE

Software Developer Intern

Tythe Labs, Inc.

May 2025 - Aug 2025

Los Angeles, CA (Remote)

- Built React interfaces for Tythe Labs' on-chain credit protocol platform, developing reusable components for credit-profile and dashboard features.
- Developed backend services and business logic in Python, building REST API endpoints and integrating database models and external services.

Omnichannel Specialist

Best Buy Canada

Jun 2025 - Present

Kelowna, BC

- Drove \$24,000 in Protection Plan revenue at a peak 10% attachment rate, ranking top 5 of 15+ associates.
- Earned Employee of the Month twice in under a year (Aug 2025, Jun 2026) among a team of 15+ associates.

Student Communications Coordinator

Age-Link Society (promoted twice in 4 months)

Jun 2025 - Apr 2026

Kelowna, BC

- Progressed from Junior Financial Advisor to Senior Financial Advisor to Student Communications Coordinator.
- Grew event participation 50% (70 to 105 attendees) by segmenting outreach to 100+ students.
- Coordinated logistics for 3+ events each semester across 5+ executives, building a record-keeping system for successors.

Student-at-Large, SUO Policy Committee

UBC Okanagan Students' Union

Jun 2025 - Apr 2026

Kelowna, BC

- Reviewed policy and bylaw proposals, refining motion wording before board advancement; awarded a Leadership Recognition Certificate (2026).

Research Contributor

University of British Columbia, Okanagan (Prof. AKM Amanat Ullah)

Jan 2024 - Aug 2025

Kelowna, BC

- Synthesized and coded 500+ academic papers on a 10-member systematic literature review team.
- Co-defined the team-wide evaluation criteria and inclusion/exclusion framework, improving inter-coder consistency.

PROJECTS

MCQ Exam Management Platform (*UBC Okanagan Earth, Environmental and Geographic Sciences Dept.*) | React, Tailwind CSS, FastAPI, Python, PostgreSQL, Docker, JWT, REST APIs, Pytest, Vitest, React Testing Library

- Designed the instructor workflow and owned the React/Tailwind UI for question banks, grading, and analytics on JWT-secured FastAPI REST APIs with role-based access control; fully owned multi-variant exam generation, including backend algorithms and planning logic.
- Validated the platform under 100+ concurrent users and high-volume data workloads, maintaining consistent performance across a Dockerized multiservice architecture on PostgreSQL.
- Optimized and validated the containerized background worker for up to 10 concurrent task executions, moving heavy processing off the request path through asynchronous jobs.

Full-Stack Job Portal | React, Node.js, Express, MongoDB, Docker, GitHub Actions, JWT, Playwright, Swagger

- Built a role-based MERN job portal (jobseeker, employer, admin) with JWT auth and Swagger OpenAPI docs.
- Automated a GitHub Actions CI pipeline running lint, Vitest, and Playwright tests on every push to catch regressions.

Game of Amazons AI Agent | Java, Minimax, Alpha-Beta Pruning, BFS, Heuristic Design

- Engineered a depth-limited Java minimax agent with alpha-beta pruning, cutting evaluated branches 60% (10th class-wide).
- Designed a multi-factor heuristic from BFS territory reachability, mobility, and positional pressure, plus a legal-move generator.

BestBytes Movie Database & Review System | Python, FastAPI, React, Docker, REST APIs, Agile/Scrum

- Architected a movie review platform with a FastAPI backend exposing REST endpoints for auth, catalog, and review services.
- Containerized the backend with Docker and shipped iteratively as a 4-person Agile team with modular services.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C++, SQL, HTML/CSS

Frameworks & Libraries: React, Node.js, Express, FastAPI, Tailwind CSS

Databases: PostgreSQL, MongoDB

Tools, Practices & Concepts: Docker, GitHub Actions, CI/CD, Git, REST APIs, Swagger/OpenAPI, Pytest, Vitest, Playwright, React Testing Library, Concurrency & Asynchronous Processing, Data Structures & Algorithms, Agile/Scrum
